I didn't get a report for this one so just to fill in the rest of this page I will give you my observations. In the 75's Noel Dunne put up one of the best totals this year by an unequipped middle-weight and Dave Fitzhenry looks like he may be the first person to top 800 unequipped, did he weigh-in then or what? Anyone could send me a few words, it doesn't have to be the promoter! I understand this event was run in conjunction with highland games so a proper report would have been nice.
